S. 1562

To provide for a study and report on research on the United States Arctic Ocean and for other purposes.

IN THE SENATE OF THE UNITED STATES

August 3, 2009

Mr. Begich introduced the following bill; which was read twice and referred to the Committee on Commerce, Science, and Transportation

A BILL

To provide for a study and report on research on the United States Arctic Ocean and for other purposes.

- 1 Be it enacted by the Senate and House of Representa-
- 2 tives of the United States of America in Congress assembled,
- 3 SECTION 1. SHORT TITLE.
- 4 This Act may be cited as the "Arctic Ocean Research
- 5 and Science Policy Review Act of 2009".
- 6 SEC. 2. FINDINGS.
- 7 Congress finds the following:
- 8 (1) The United States is an Arctic nation
- 9 with—

1	(A) an approximately 700-mile border with
2	the Arctic Ocean;
3	(B) more than 100,000,000 acres of land
4	above the Arctic Circle; and
5	(C) an even broader area defined as Arctic
6	by temperature which includes the Bering Sea
7	and Aleutian Islands.
8	(2) The Arctic region of the United States—
9	(A) is home to an indigenous population
10	which has subsisted for millennia on the abun-
11	dance in marine mammals, fish, and wildlife
12	many of which are unique to the region;
13	(B) is known to the indigenous population
14	as Inuvikput or the "place where we live"; and
15	(C) has produced more than
16	16,000,000,000 barrels of oil and, according to
17	the United States Geological Survey, may hold
18	an additional 30,000,000,000 barrels of oil and
19	220,000,000,000,000 cubic feet of natural gas
20	making the region of fundamental importance
21	to the national interest of the United States.
22	(3) Temperatures in the United States Arctic
23	region have warmed by 3 to 4 degrees Celsius over
24	the past half-century, a rate of increase that is twice

25

the global average.

- 1 (4) The Arctic ice pack is rapidly diminishing 2 and thinning, and the National Oceanic and Atmos-3 pheric Administration estimates the Arctic Ocean 4 may be ice free during summer months in as few as 5 30 years.
 - (5) Such changes to the Arctic region are having a significant impact on the indigenous people of the Arctic, their communities and ecosystems, as well as the marine mammals, fish, and wildlife upon which they depend.
 - (6) Such changes are opening new portions of the United States Arctic continental shelf to possible development for offshore oil and gas, commercial fishing, marine shipping, and tourism.
 - (7) Existing Federal research and science advisory programs focused on the environmental and socioeconomic impacts of a changing Arctic Ocean lack a cohesive, coordinated, and integrated approach and are not adequately coordinated with State, local, and private sector Arctic Ocean research programs.
 - (8) The lack of research integration and synthesis of findings of Arctic Ocean research has impeded the progress of the United States and international community in understanding climate change

- 1 impacts and feedback mechanisms in the Arctic
- 2 Ocean.
- 3 (9) An improved scientific understanding of the
- 4 changing Arctic Ocean is critical to the development
- 5 of appropriate and effective regional, national, and
- 6 global climate change adaptation strategies.

7 SEC. 3. UNITED STATES ARCTIC OCEAN DEFINED.

- 8 In this Act, the term "United States Arctic Ocean"
- 9 means the United States zone of the Chukchi and Beau-
- 10 fort seas north of Cape Prince of Wales, Alaska.

11 SEC. 4. STUDY OF THE UNITED STATES ARCTIC OCEAN.

- 12 (a) STUDY.—Not later than 120 days after the date
- 13 of the enactment of this Act, the Secretary of Commerce
- 14 shall request that the National Research Council conduct
- 15 a study on the existing research and research advisory en-
- 16 tities of the United States Arctic Ocean. Such study
- 17 shall—
- (1) include a review of the breadth, relation-
- ship, and overlap of existing research programs and
- research advisory entities engaged in or advising on
- 21 United States Arctic Ocean research, including re-
- search related to any coastal or atmospheric re-
- 23 search of United States Arctic Ocean, including the
- operating budgets of such entities;

- (2) assess the gaps in the research and research programs referred to in paragraph (1) and in the coordination, integration, and synthesis of research activities and research data;
 - (3) assess existing scientific information and identify additional information necessary, including local and traditional knowledge, to ensure adequate Federal agency environmental reviews;

(4) recommend a comprehensive strategy—

- (A) to develop priorities for, and coordination, integration, and synthesis of, research and monitoring carried out on United States Arctic Ocean; and
- (B) to coordinate and integrate such research with pan-Arctic research; and
- (5) provide a comprehensive, 10- to 20-year long-range United States Arctic Ocean research and monitoring plan with applied emphasis on climate impacts, adaption, including response to coastal inundation issues, resource management, ecosystem function, marine transportation, pollution, ocean acidification, and coastal and offshore oil and gas development, including cold water oil spill response and marine mammal noise issues.

- 1 (b) COORDINATION.—The Secretary of Commerce
- 2 shall consult with the heads of other agencies and depart-
- 3 ments of the United States with appropriate Arctic science
- 4 expertise or regulatory responsibilities in preparing the
- 5 specifications for the study requested under subsection
- 6 (a).

7 SEC. 5. REPORTS TO CONGRESS.

- 8 (a) REQUIREMENT FOR REPORT.—Not later than 18
- 9 months after the date of the enactment of this Act, the
- 10 Secretary of Commerce shall submit to Congress a report
- 11 on the study described in section 4(a). Such report shall
- 12 include—
- 13 (1) a description of the findings of such study;
- 14 (2) the recommendations of the National Re-
- search Council to improve the coordination, integra-
- tion, and synthesis of current Arctic research activi-
- ties and research data; and
- 18 (3) a prioritized and scalable research plan for
- the United States Arctic Ocean that is arranged the-
- 20 matically and includes budget estimates for research
- 21 under such plan.
- 22 (b) Interim Reports.—Not less frequently than
- 23 once every 180-day period until the report described in
- 24 subsection (a) is submitted, the Secretary of Commerce

- 1 shall submit to Congress a report on the progress made
- 2 to carry out the study described in section 4(a).
- 3 SEC. 6. AUTHORIZATION OF APPROPRIATIONS.
- 4 There is authorized to be appropriated to the Admin-
- 5 istrator of the National Oceanic and Atmospheric Admin-
- 6 istration \$2,000,000 for fiscal year 2010 to carry out this
- 7 Act.
